DRAFT FOR PUBLIC COMMENT

Medical devices — Surgical gowns, drapes and clean air suits — Part 2: Test methods

1 Scope

This part of Draft Zanzibar National Standard specifies test methods for evaluating characteristics of surgical gowns, drapes and clean air suits.

NOTE 1 Test methods are specified by referring to standard test methods and where necessary, specifying the amendments to adopt the test method for the purpose of this document.

NOTE 2 This part of Draft Zanzibar National Standard does not cover the test method for evaluating adhesion for fixation for the purpose of wound isolation as there is no suitable method for adhesion to human skin available at present. For more information on adhesion for fixation for the purposes of wound isolation, see PCD 879-1,
